

CATALAN MUSIC COMPANIES DIRECTORY 2014

Published by ICEC

The data contained in this publication have been
provided by the companies.

Publication closed on January 2014

DL: B. 2039-2014

FOREWORD

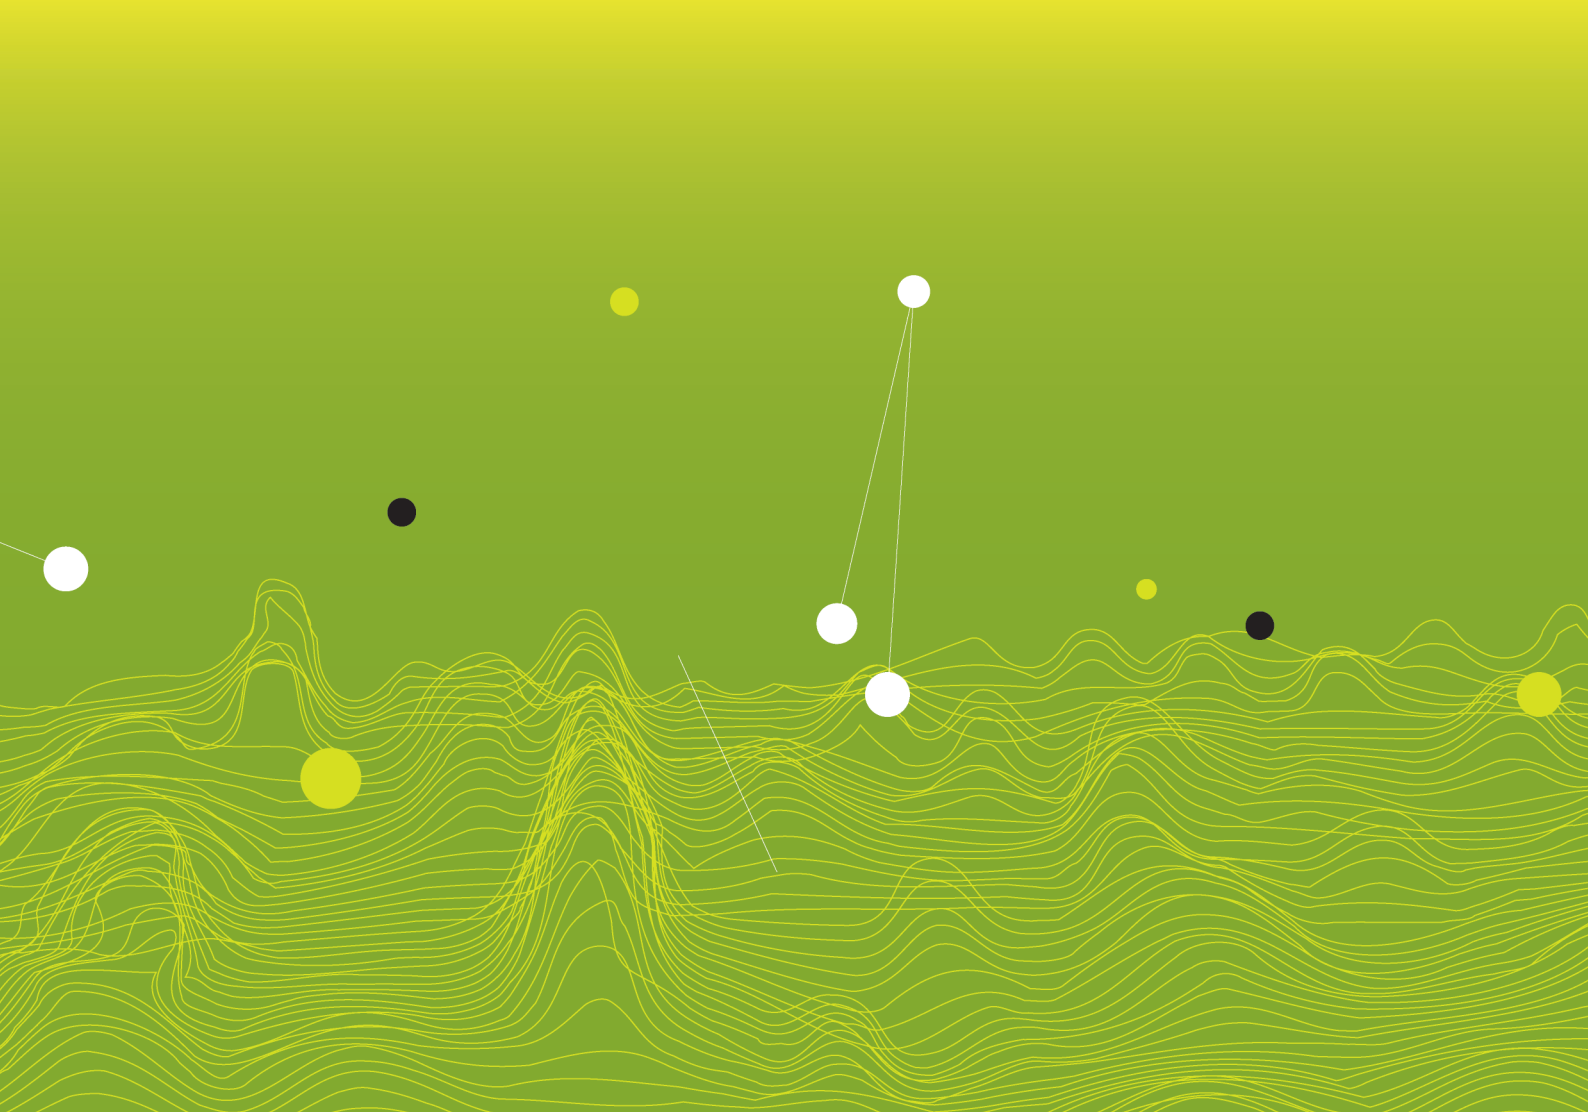

The catalogue you have in your hands presents a broad overview of the companies and organisations in the music sector and the main festivals in Catalonia. This publication aims not so much to be exhaustive (thus requiring many more pages), but to serve as a presentation for those Catalan companies working internationally that have provided their details when requested by the Market Development Department, attached to the Catalan Ministry of Culture.

The catalogue is intended as a useful and practical tool for professionals in the UK, France, Germany, the United States, Japan and other countries where Catalan music companies do business. As in previous editions, the catalogue reflects the major changes in the music industry in recent years. Whereas the contents of the catalogue initially focused on record companies, it is now complemented by music companies involved in other areas of the business. Many of these companies do not work exclusively in just one area of business, as the development of the sector has required them to take on various functions at the same time (labels, artist management, marketing managers, etc.). The guide identifies these business activities, divided into two main sections: music companies (labels, managers, bookers, media, distributors, venues and others), and festivals and music venues.

The publication of this catalogue is part of the policy of the Market Development Department to offer tools that help promote Catalan cultural businesses.

Publishing guides and directories is one aspect of this policy, along with release of CD sampler compilations of the most relevant new developments in Catalan record production in the fields of electronic music, jazz, pop rock and world music. The main objective is to promote the international presence of music made in Catalonia and the professionals and companies behind it. For this reason, all these materials are also available on the website www.catalanarts.cat, with updated information on the work of Catalan businesses and artists around the world.

This Barcelona music promoter has, since its modest beginnings, developed a strong commitment to music so that spectators of different generations can enjoy live music to the full. Its festival Primavera Sound, which has been taking place in Barcelona

since 2001, has consolidated itself as a model reference for urban festivals and is internationally considered an unmissable event. Primavera Sound has also set up other big events like Primavera Club and Primavera Sound Touring Party. The company also organizes tours of bands around Spain and has recently created a label, El Segell del Primavera, with national and international artists.

Early music / classical / contemporary

Tritó Edicions is a music publisher specialized in the Catalan, Spanish and Ibero-American repertoire. We distribute also works issued by diverse publishers from Spain and abroad. Our recordings are fruit of the same interest in recovering and diffusing the repertoire of old and modern Spanish composer. Since 1991, when Tritó Productions was founded, it has been dedicated to a wide range of work linked to music and artistic production, which it carries out in conjunction with diverse institutions and cultural organizations

Other

Ciutat Flamenco is a festival of creation and experimentation and a platform for unorthodox, transgressive and interdisciplinary proposals in the field of contemporary flamenco. The approach is universal, open and democratic, willing to challenge the limits and constraints of orthodoxy: everyone can take flamenco as a language for artistic expression, and allowed to mix, transform and pervert it to give new formulas subject to aesthetic appreciation

Connexions is a musical dialogue open to all styles and all influences. A dialogue enlivened by mutual inspiration and mould breaking, producing surprises at every turn. Connexions brings together musicians who represent apparently distant universes to see how they react, what music comes out, and what new doors open for their songs. Always with Barcelona as the centre of gravity. Connexions is organized by Taller de Músics, Bankrobber and Sala Apolo, that from 2013 welcomes all concerts

Mercat de Música Viva de Vic is a professional meeting place for all of the sectors of the music industry. A showcase for musical ideas that grow out of the exchange of information between programmers and bands, cultural managers and musicians, the music business and its public. For four days every September since 1989, the city of Vic has brought together representatives of all areas of music from around the world to see new developments, attend forums, exchange their knowledge and buy and sell music

CATALAN MUSIC

04

One of the goals of the Market Development Department, an area of Catalan Institute for the Cultural Companies attached to the Ministry of Culture, is to identify and disseminate the work of musicians and artists from Catalonia, as well as that of the music industry that supports them: labels, managers, bookers and festivals, among others. The site www.catalanarts.cat reflects all the actions developed by the Market Development Department to favour the international promotion of Catalan music abroad. These actions include the coordination of the Catalan presence in international fairs and festivals, the support to professional networks both in Catalonia and abroad, consultancy services and the creation of promotional and marketing tools –such as this catalogue.
